

Network Controllers

These products are designed to work with our Network Thermostats giving superior control of your heating system. Have central control of your home heating system with the use of our Colour TouchPad or remote control whilst away with our Telephone Remote Control (TR2).

heatmiser Touch Pad

The Heatmiser TouchPad, featuring a colour touch screen, gives central control of up to 32 low voltage thermostats. You are able to give each thermostat a name allowing you to easily identify each thermostat on

the network. Remotely program the comfort levels of all networked thermostats from one central point and copy program settings from one thermostat to another across the network.

Features

- Display Colour Touch Screen (58 x 77 mm)
- Max Zones 32 zones
- Title Give each zone a unique name
